

Roadmap

What's finished, what's underway, and where it's headed.

Nothing here is hidden — the work already done, the steps in front of us right now, and the vision for the years ahead, laid out plainly so anyone can see the progress and hold us to it.

Done

Underway now

Planned ahead

A roadmap usually lives behind closed doors. We're putting ours in the open because this work isn't ours to keep — it's an effort to share the goodness of Jesus Christ the way He shared it: *meeting each person where they are, and giving something back instead of taking*. Every box below is a real promise. The checked ones are kept; the empty ones are coming, planned well in advance so nothing surprises us late.

BUILT CAREFULLY · MEANT TO BE TRUSTED · POINTING TOWARD CHRIST

The app itself

Before anyone can be met where they are, the thing that meets them has to exist — and be built the right way. This part is finished and running.

HOW IT MINISTERS

- ✓ **Story first, never a survey.** Opens with a short, scripture-grounded story from the life of Jesus and one honest question — not a form asking your religion.
- ✓ **It listens, then meets you there.** Reflects your answer back in your own words and quietly shapes what comes next — no labels, no gates, no "you haven't qualified yet."
- ✓ **A new story on every return,** never repeating — building a personal record of what you've experienced.
- ✓ **A Profile that remembers you gently** — the stories seen, the answers given, and what it's learned, all visible to you and removable any time.
- ✓ **Milk before meat.** Everyone receives the goodness of Jesus first; those drawn toward the restored gospel are met with a deeper path — without ever being quizzed or sorted.
- ✓ **A real person, always one tap away** — never buried, never gated.
- ✓ **Honest about what it is.** It says plainly it is not God and not the Church — only a helper that points toward Christ.

HOW IT'S BUILT

- ✓ **Works on your phone, privately** — most of it runs without an account, words kept on your own device.
- ✓ **A companion that listens any hour,** with a careful Christ-centered voice and a gentle offline fallback.
- ✓ **A ministry console** that receives and watches over conversations, ready to grow into a team.
- ✓ **A promotional website** at milk4meat.org with privacy, support, and this roadmap.

Into people's hands

One steward watching over every conversation while the app ministers, and getting it onto the app stores. Most of this is done — a few honest steps remain.

WHERE IT IS RIGHT NOW — THE INVITE-ONLY TESTING PHASE

- ☒ **This is a testing phase, not the public release.** On Android the app is in a closed, invite-only internal test. On iPhone it's a TestFlight beta — also invite-only, and essentially internal until Apple releases it to the public App Store. A separate, real phase from the public launch that follows.
- ☒ **Testers are asked to critique as hard as they can.** Honest, unsparing feedback is the whole point of this phase — it's how the app becomes genuinely good at its one main job: ministering the way Christ did. Nothing is too small to flag.
- ☒ **Try every kind of experience — including as a non-member.** Testers who belong to the Church are warmly invited to also walk through the app as someone who doesn't — anonymous, no faith background — to see how it meets a seeker and help test that path too. Settings can always be changed back afterward.

THE ACCOUNTS & THE STORES — SET UP

- ☒ **Apple, Google Play, and build accounts** created, paid, and verified.
- ☒ **iPhone version submitted to Apple** for public review — set to go live automatically once approved.
TestFlight beta already open to first testers
- ☒ **Android publishing pipeline live** — new builds push to testers automatically, proven working.
- ☒ **Store listing written** — name, descriptions, icon, and feature graphic done.
- ☒ **milkb4meat.org connected** to the live website (apex + www).

THE FEW STEPS IN FRONT OF US

- ☒ **Apple's review of the iPhone app** — submitted and waiting; when approved it goes public on its own.
Waiting on Apple · nothing left but to watch
- ☒ **Finish the Android store screenshots** so the listing turns fully green.
Files ready · final upload step
- ☐ **Security clean-up** — rotate keys and change the admin password off its placeholder before sharing widely.
~30 minutes
- ☐ **Gather about 15 Android testers** and start Google's required 14-day closed test — the last gate before Android goes fully public.
- ☐ **Ship the next build** carrying the latest improvements to every phone.

BEFORE A WIDE, PUBLIC PUSH

- ☐ **Speak with the Church's Intellectual Property Office**, describe the app honestly, and add a trademark attribution to the footer.

- ☐ **Set a hard spending cap** on AI usage and decide on the paid hosting tier so nothing breaks at scale.
- ☐ **Counsel with a bishop or stake president** before inviting the world in.

MAKING THE MINISTRY BETTER (NEXT BUILDS)

- ☐ **Smarter conversations** — route the hardest moments to the strongest help, everyday moments to a lighter touch.
- ☐ **A way to testify, not just doubt** — a genuine "I believe" option so a believer is never cornered into unbelief.
- ☐ **Stronger offline answers**, behind a quality gate, so a weak answer never ships.

PHASE 2 · DESIGNED & READY TO SLOT IN

A SMALL TEAM

A small team to walk alongside

When more people arrive than one person can answer, the work opens to a small team of volunteers and supporters — built to slot in without a rewrite.

- ☐ **Invite trusted volunteers and supporters** to receive and answer "talk to a real person" conversations.
- ☐ **Route conversations to the right helper**, with care and oversight, so no one waits alone.
- ☐ **Gentle guidance for helpers** so every reply stays in the spirit of how Jesus ministered.
- ☐ **Listen to what's landing** — quietly learn which stories help most, and refine over the air.

PHASE 3 · THE LONG VISION

A POSSIBILITY, THE CHURCH'S TO DECIDE

Hand in hand with the Church

The furthest horizon. The app doesn't need the Church's endorsement to do its work — so everything here is offered only as a *possibility*, for the Church's own council and leaders to weigh and decide, if and however they ever see fit. Held humbly, never assumed.

- ☐ **Real missionaries in the conversation**, integrated into chat and the "connect with a person" pipeline — a possibility, only if the Church ever chose it.
- ☐ **A gentle missionary-referral path** — a respectful way to connect a ready person with missionaries near them — only if the Church approves it.
- ☐ **A genuine partnership** that keeps the app a humble helper, always pointing past itself to Christ and His restored Church.

What we're building toward

That the same care the world's biggest platforms pour into keeping you scrolling could instead draw you closer to Jesus — freely, beautifully, without taking anything from you.

RICHER STORIES

Watch, hear, and read along

Handheld video, gentle sound, and read-along scripture — the stories of Jesus told with real beauty and warmth, worth coming back to.

THE GOOD ALGORITHM

Personalization that only feeds your soul

The learning that powers a social feed, pointed at one thing: recommending only good, true, Christ-centered content, tuned to what you need next.

FREE, AND FOR EVERYONE

A free way to get closer to Jesus

No account, no ads, nothing sold. A place where someone with no church and no background can simply begin — and be met with kindness.

MILK AND MEAT

Depth for those ready for more

For members and those drawn toward the Church, discipleship that keeps pace with living prophets and the scriptures.

A PLACE TO GATHER

A real social presence

A genuine page — the kind people already follow — carrying the stories of Jesus and only-good content out where the world already is, drawing people gently back toward a quieter place.

Milk Before Meat

milkb4meat.org · admin@milkb4meat.org

This app and website are an independent effort and are not officially affiliated with or endorsed by The Church of Jesus Christ of Latter-day Saints. The app is a helper that points toward Christ — it is not God, and cannot answer a prayer or know you the way He does. Take what you feel here to God, and to people who love you, and let the Spirit — not an app — tell you what is true.
